TESTIMONIALS <https://health.forgivenesscapital.com/testimonials>

I lived with endometriosis for years. I lived in chronic pain for a long time. It was an intense feeling of inflammation that I was suffering from. I found Joe and he did his magic on me without a appointment. I can say now I have been living without any pains. He is a real healer. He is a truly magical person. I would recommend a session with Joe to anyone he has a gift he can share with you. -L.S.
